GENERAL INFORMATION

State - Sovereign and Independent Arab State
Capital City - Doha

NATIONAL FLAG

Maroon color with a broad vertical white stripe at the pole, the two colors being separated with a nine serrated line.

MEANING OF THE FLAG

The white color reflects the internationally recognized symbol of peace. The maroon color symbolizes the bloodshed during the several wars Qatar has undergone. The nine point serrated line indicates that Qatar is the 9th member of the reconciled Emirates of the Arabian Gulf in the wake of concluding the Qatari-British treaty in 1916.

NATIONAL ANTHEM

"'As Salam Al Amiri" is the Qatar National Anthem. Sheikh Mubarak bin Saif Al-Thani wrote the song and music was composed by Abdul Aziz Nasser Obaidan.

NATIONAL SYMBOL/EMBLEM

The emblem shows two crossed white bent swords in a yellow circle. Between the swords there is a ship (dhow) sailing on blue and white waves beside an island with two palm trees. The circle is surrounded by a round doughnut-shaped object, which is divided horizontally. In the white section the name of the State of Qatar is written in maroon Kufi writing and in the maroon section, the English translation is written in white writing. The Coat of Arms is sometimes shown without the English translation, the middle circle is occasionally yellow and the bent swords are sometimes brown instead of white.

NATIONAL HOLIDAY

National Day - December 18th

OFFICIAL LANGUAGE

Arabic is the official language. English is widely spoken.

RELIGION

Islam is Qatar's official religion. Most inhabitants in Qatar practice the Sunni Islam religion.

أحمد ناصر الرئيس

Mr. Ahmed N. Al Rayes

Webster's dictionary defines quality as "a degree or grade of excellence or worth". For the best companies in today's global business environment, the term means much, much more. Ahmed Nasser Al Rayes, President and Managing Director, Al Rayes Group sees quality as the cornerstone of his enterprise, and the ability to enhance it as the defining principle of profitability.

Ahmed Al Rayes graduated from the University of Salford, Manchester, with a bachelor's degree in Business Administration in 1980. Soon after, he returned to Qatar and joined the family business which was established by his grandfather 75 years ago. They had their first shop on Hamad Street (Grand Hamad Avenue) and his father was the first businessman in Qatar to import spare parts for cars. When Ahmed joined his father in 1980 they had a shop in Souq Faleh which sold electronic goods like air-conditioners, refrigerators, Watches, Televisions, washing machines etc. Ahmed helped expand the business with another shop in Souq Aseri and it was all systems go from there.

Ahmed Al Rayes is the only Qatari to be awarded honorary US citizenship. The Virginia Business Club bestowed this honour on him in 1993. Ahmed is a member of the Qatar Chamber of Commerce and Industry and represents Qatar with many foreign delegations, the recent one being to Taiwan. He also attends 80% of the exhibitions round the world in Europe, Asia and America connected to his business. This leaves him very little time for breaks, so he usually combines the two. "If, for instance, I'm in Las Vegas for the laundry exhibition for a week, I take another week off." It also means he rarely goes on holidays with his family, so the time he spends with them is very precious. He is proud of all his children and jokes about his 18-year old son Badar Al Rayes who is currently on a sabbatical, filming a video clip in Dubai. "I foot the bill," he smiles though it is pretty obvious that he is proud of his singer son who has already shot clips in Turkey and Dubai and is a budding singer in the region. His older sons do pass by the office & specially when I'm not in town, and he says they are still too young to join the business. He would however, like to do what his father did. "My father's policy was simple. We are five brothers and are all in business, but he told us to go our separate ways and not be partners. We do support each other though, and we have never had problems with each other."

Ahmed has one weakness it's his antique collection. These include a 100 year old carpet that belonged to the King of Hyderabad and many such collectables. While he does visit auctions and buy from collectors, he admits he isn't able to spend as much time on his collection as he would like. He is very content with life though and considers himself very blessed. His dream, he says, is to some day be able to build affordable apartments for those in the low income bracket.

The group has been making outstanding progress in a business where customer is king. Armed with the strength of the Al Rayes Brand and the value it can bring to its customers, Ahmed Al Rayes is geared to take the group further in a country that is racing ahead in the global arena.

Al Rayes Group has over 37 companies under the umbrella and employs over 1900 people. The companies include Ahmed Al Rayes Trading for general trading, imports and distribution and Ahmed Al Rayes Gas and Al Shamal Gas Centre for distribution of gas cylinders for domestic purposes. The two gas companies between them own 36 vehicles that have been distributing cylinders for the last 30 years. Ahmed however, is of the opinion that it is time for Qatar to have piped gas distribution.

Al Rayes Laundry & Dry Cleaning provides laundry and dry cleaning services to all companies in Qatar with a door to door service. "We are the only professionally run laundry service in the country," says Ahmed. "We have 26 branches and two factories with a staff of 320." The laundries are fitted with the latest equipment which involved an investment of QR 26 million. They have won contracts for the Asian Games, all the major conferences including the WTO round held in Doha, and their clientele comprises airlines, hotels, big compounds and foreign army bases. Ahmed has plans to increase the number of branches to 60 in a year's time with staffing of up to 1000 employees.

Through Al Rayes Laundry Equipments & Accessories, the company markets equipment and accessories for the use of commercial laundries and hotels and they are the agents for Tintolav products and Seitz Chemicals. Al Rayes Cleaning Company handles cleaning of carpets, curtains and sofas. Arizona English Language Centre holds classes for TOEFL and general English language classes. They are linked with the University of Arizona.

Arizona Trading mainly deals with food and beverages and are the agents for brands like Power Horse, Star Juice, Al Mudish milk, Aqua water, San Minguel, Cali, Noon & Freeze while British Restaurants serves typical British meals. Nasco Group Building Material, Nasco Trading & Contracting, and Dome Trading & Contracting take on contracts for renovation of apartments and villas and are also agents of various brands of wall tiles, floor tiles, marbles and granites. MPH provides services to the oil and gas industry. Other companies in the group include Al Rayes Video, Al Rayes Car Rental, Lion Rent A Car (Limousine Service 24 Hrs) and New House Complex House Hold Items.

The Group is also into real estate and owns compounds with villas. Ahmed Al Rayes is however waiting for rents to stabilize before venturing into apartments. Another project in the pipeline is a four-star business hotel and Ahmed is looking forward to building his own brand rather than bringing in a franchise. He would also like to open more restaurants that offer fine dining. "Change is the only constant in life. You need to keep renewing yourself. In business if you stop you get lost," says the dynamic president who plans on opening a travel agency as well so he is able to offer his customers the entire gamut of services. His vision he says, would be to offer all of these services, including schools and clubs, in each of the compounds he builds.

VISION

Our vision is to constantly focus on innovation. We believe in the simple not the complex solution for our valued Clients. We believe that we need to own and control the primary requirement behind the service that we provide, and participate only in markets where we can make a significant contribution. We believe in saying no to thousands of projects, so that we can really focus on the few that are truly important and meaningful to us. We believe in deep collaboration and cross-pollination of our groups, which allow us to innovate in a way that others cannot. And frankly, we don't settle for anything less than excellence in every group in the company. To be the most trusted and respected professional services firm recognized by our clients for delivering excellence.

MISSION

To serve our clients by providing the highest quality professional services at competitive prices that addresses their business issues. We attract, recruit, and retain the most knowledgeable and passionate professionals, and we provide a collaborative culture that enables them to thrive professionally and personally. We deliver superior quality results to the service community while contributing to the communities in which we live and work. Our motto is to be the best in the eyes of our customers, employees and the market.

ACORN NURSERY

Acorn Nursery an innovative early learning experience for children aged 12months to 4 years We are located in the Ain Khalid area of Doha and in Al Khor.

We offer the Early Years foundation stage of the curriculum for England. The activities offered are especially planned to enhance children's learning. We are equipped with the very best educational toys and games, with qualified staff and pleasant environment.

CURRICULUM

We are an English speaking international nursery school following the English national curriculum early years foundation stage (EYFS). This is enhanced by the inclusion of good practice from around the world including the local Arabic languages and culture.

Each child is special and treated as an individual. Our staff provide a learning programme tailored to the individual learning and developmental needs of each child.

FACILITIES

Acorn Nursery has been designed to provide high standards of teaching and care for your child. We have well equipped rooms with a range of books and resources. Children are encouraged to be creative and use their imaginations, with the teaching day revolving around activity areas and child – centred learning.

The outside play areas have extensive shading and special safety flooring. They contains ride on toys, role play equipment, water play and a sandpit. These areas assist children to develop physically with rooms to move about, play games and explore the world around them. The nursery has its own full time nurse on site to safeguard the wellbeing of all the children.

Main contractors very often require qualified and competent subcontractors to support them for the timely completion of projects.

There are a number of small scale firm in the market but does not have the technical competence and facility to address the kind of quality required by the client. Hence many times main contractors are forced to get the work done at the risk of quality and delays.

To address this problem benchmark has established a medium scale electromechanical division with high quality technical skills and expertise, for all works related to Fire Alarm, Fire Fighting, Electrical, Low Current, Ventilation, Air Conditioning, Plumbing and Drainage etc. And have a proven track record to its credit.

The company established in 2005. Today the company is a Name in the field of Electro-Mechanical services with necessary infrastructure, good work force and expertise in Installation & Maintenance works complying with Qatar Civil Defense Dept. (QCDD) and Kahramaa regulation

NEW HOUSE COMPLEX

New House Complex is a leading Importer and Supplier of the world's finest products of Kitchen Equipment, Buffet ware, Glassware, Chinaware, Kitchen Accessories, Cutlery, Linen, and Dust Bin Etc. Since the very inception in 1980 in Doha-Qatar, our endeavor has been to provide unique and quality products backed by quality customer services to the hospitality Sector as well as at our retails showrooms. We also retail these products through our showrooms across GCC countries and Asia.

After a successful launch in Qatar, we extended our reach through branches in Dubai, Oman, Bahrain, KSA, Indonesia and Malaysia. The strict adherence to quality enabled us to obtain a substantial share of the tabletop requirements in most of the new Hotels that opened in Qatar during the last decade.

New House Complex is now focused on HORECA and Retail business to provide better quality of services to our retail customers and for our hospitality customers. We have established the company Oscar hospitality concepts to provide professional support and service for the HORECA and Retail business in GCC countries and Asia.

Printing was once unknown to people, and during those days only few people were able to read and write. Flow of information was restricted by and confined to those few peoples. Printing has revolutionized information dissemination and the spread of knowledge like no other. Today, the impacts on the economy and the way we conduct business have all been the progenies of that humble lead type.

The fact that with the aid of this invention we are able to make permanent records of current events and of the progress that is being made in all lines of endeavor from day to day Look around us Images, words, brands, Information Technology and even our thoughts. Their genesis was print.

PRINT, THE IMPACT IS LIMITLESS

- Offset Printing
- Computer Stationaries
- Screen Printing
- Signages
- Gold Foiling
- Digital Printing
- Gifts & Promotional Items
- Architectural Models

What We Do?

FVC is a value added distributor (VAD) that provides tangible solutions across essential areas of enterprise computing: unified communications, unified collaboration, audio-visual, IT infrastructure and security and Services.

Solutions

Whether it's on-premise, cloud-based or mobile, we offer technology products, services and solutions that our customers can rely upon. From reimagining the workspace through Unified Communications and Collaboration, facilitating a state-of-the-art technology experience through enterprise wide Audio-Visual installations, to ensuring exceptional network performance and complete peace of mind with IT Infrastructure and Security, our solutions are backed by absolute service excellence and leading edge innovation.

Unified Communications

FVC offers a comprehensive unified communications portfolio of world-leading, cutting-edge technological solutions under one banner, coupled with a certified service package for our channel of resellers

Unified Collaboration

Collaboration has become a key factor for success, we have joined forces with two leaders in the communication and collaboration market, AlcatelLucent Enterprise and Polycom, to ensure we empower our resellers and customers with the latest technologies to serve their business and inspire their success.

Audio-Visual

FVC's audio-visual portfolio has evolved to be a complement and one-stop solution for our customers' meeting rooms, conference rooms and training rooms. At FVC we provide a complete AV solution that enhances the customer's collaborative experience.

IT Infrastructure & Security

FVC offers a complete range of IT Infrastructure and Security solutions, covering advanced networking, performance management, data classification, vulnerability management, mobile encryption and business continuity.

Services

FVC is differentiated not only by our innovative solutions, but also by our value-driven services. Our key pillars of services landscape includes; FVC Specialized Support Care Services, Professional & Managed Services, Training & Consulting, FVC Workspace Design & AV Integration Services, Specialized Microsoft Services, FVC Exclusive Concierge Services, and Service Provider Offerings.

Our management, supervision and coordination with clients enables us to perform and deliver any project on time. We offer a complete

Engineering service, controlled project management and uninterrupted execution of work. We ensure all projects undertaken are managed to the highest standards, and in which we comply with all legal legislation's and safety requirements.

JMCI undertakes any size project (small or large) and is effective in dealing directly with clients as main contractor or equally as a subcontractor depending on the scope of particular project. Prior to any works commencing, careful planning and coordination with the main contractor along with full intrusive surveys are carried out to ensure safety, timescales, environmental and any restrictions are resolved in to allow an uninterrupted progress until completion. For each and every project JMCI will prepare and submit an array of documents which include fully detailed: Site-

Specific Method Statements, Construction Demolition schedule Phase, Environmental Plan and Site Waste Management Plans.

By using the latest technology combined with wealth of experience and

international labor has resulted in an unrivaled service in the demolition, dismantling, diamond concrete cutting and coring. If you are looking for a construction company to provide you with a reliable service at a competitive price, delivering excellent workmanship then look no further than JMCI Qatar.
